

RITAM DAS

Python Backend Developer | NLP & Applied ML | AWS-Ready Systems Builder

ritamdass965@gmail.com | +91 8777672300 | Kolkata, WB, India | [Github](#) | [LinkedIn](#) | [Portfolio](#)

Data Science undergraduate (3rd year, CGPA 8.0) who ships production systems, not just notebooks. Built and deployed 2 full-stack AI products — including a real-time mental health crisis detector and a live legal-AI platform used by real users — architecting FastAPI backends, dual-model NLP pipelines, and hybrid SQL/NoSQL systems end-to-end.

CORE SKILLS

Backend: Python · FastAPI · Flask · REST API Design · JWT Auth
AI / ML: NLP · DistilBERT · MiniLM · HuggingFace · LangChain · Scikit-learn
Data: MongoDB · MySQL · PostgreSQL · Pandas · NumPy · Power BI · Tableau
Cloud & Tools: AWS (EC2, S3, RDS, Lambda) · Render · Vercel · Git/GitHub

FEATURED PROJECTS

- RAYZA** — *AI Mental Health Crisis Detection Platform* 2024–2025 [Github](#)
FastAPI · DistilBERT + MiniLM · MongoDB · MySQL/PostgreSQL · AWS-ready

 - Architected a dual-model NLP engine fusing emotional-tone and semantic-shift analysis into a personalised 0–100 distress score, with EMA-based adaptive baselining per user.
 - Built a three-tier crisis escalation system (Alert / No Action / SOS) on a hybrid MongoDB + SQL backend, designed for real institutional deployment.
- VakilAI** — *AI-Powered Legal Document Analyzer* 2025–2026 [Github](#)
FastAPI · Claude AI · LangChain · Supabase · PyMuPDF · Live on Vercel

 - Shipped a live platform that turns dense legal documents into plain-language explanations for everyday users, with a rule-based fallback engine guaranteeing 100% uptime.
 - Independently resolved production issues — CORS, secret exposure, packaging conflicts — across a multi-service Render + Vercel deployment.
- Jarvis AI** — *Voice-Enabled NLP Assistant* 2023–2024 [Github](#)
Python · SpeechRecognition · FastAPI · Claude AI

 - Built a sub-second voice pipeline with 15+ locally-routed intents and Claude AI fallback, broadcasting live state over WebSocket to a real-time HUD dashboard.

EXPERIENCE

- Python Developer Intern** — *Codec Technologies India (AICTE Approved)* 2024 [Certificate of Completion](#)

 - Built backend data workflows and REST API endpoints serving live client-facing data; collaborated with senior engineers on production Python codebases using Git/GitHub.

EDUCATION

B.Sc. in Data Science — *Institute of Advanced Education & Research, Kolkata*
2024–2028 · CGPA 8.0/10 · Year 3 of 4 · Coursework: ML/DL, DSA, DBMS, Statistics, Big Data

CERTIFICATIONS

- Oracle OCI Data Science Professional [Certificate of Completion](#)
- IBM ML for Data Science [Certificate of Completion](#)
- Deloitte Data Analytics (Forage) [Certificate of Completion](#)
- TATA Data Analytics & GenAI (Forage) [Certificate of Completion](#)
